

A Unique Combination of Learning and Baseball at Jackie Robinson Ballpark!

2008 Education Days

“Combining Education with Baseball”

The Daytona Cubs “Education Days” provide students with a once in a life time learning experience. Using the Education Days Curriculum take your students out of class to gain real learning experience. Follow the curriculum found on the web at www.daytonacubs.com (or by cd if requested) to challenge your students through actual activities, contests, educational booths, and much more!

“Click on the Education Days Curriculum Icon on our homepage to access a printable version of the curriculum as well as this flyer.”
